

BioCocoa Frameworks Structure

BCParser.framework

Highlevel parser framework for bioinformatics file formats

BCFoundation.framework

General structures and IO functionality based on the BCParser.framework

BCAppKit.framework

Visual components for the BCFoundation structures

BCXXXFrameworks

Frameworks for many different bioinformatics applications:

BCAlignment.framework

BCHMM.framework

BCProteinStructure.framework

BCPhylogenetics.framework

.... and many many more

These frameworks contain structural and visual components.
